

## Multidiameter™ by Roxtec

### Six module sizes

Our adaptable solution Multidiameter™, based on sealing modules with removable layers, makes installation easy and safe. The modules consist of two halves and a center core. You can seal cables or pipes of several different sizes simply by peeling off layers

from the module halves, until a perfect fit is achieved. If not removed, the center core turns the module into a spare capacity unit.

## Standard and customized solutions

This index contains our standard range of products. If you need help finding a special solution that fits into your design or structure, please do not hesitate to contact

your local Roxtec supplier or e-mail [info@roxtec.com](mailto:info@roxtec.com) for guidance. The list of local Roxtec representatives is available on [www.roxtec.com](http://www.roxtec.com).

For more information and technical data about our products and solutions, see the Roxtec Product Catalogues or visit [www.roxtec.com](http://www.roxtec.com).
